

Environmentally Friendly Cleaner Recipes

All-Purpose Cleaner

Ingredients

- 4 cups (1 liter) water
- 1 tsp liquid soap
- 1 tsp borax
- A splash of vinegar

Directions

Pour 4 cups (1L) of water into a mixing container. Add the rest of the ingredients. Mix well. Using a funnel, carefully pour the solution into a spray bottle. Replace the spray top. Label the bottle. Now you are ready to clean up!

Window Cleaner

Ingredients

- 4 cups (1 liter) water
- ¼ cup white vinegar

Directions

Pour 4 cups (1L) of water into a mixing container. Add ¼ cup of white vinegar. Mix well. Using a funnel, carefully pour the solution into a spray bottle. Replace the spray top. Label the bottle. To clean windows, spray your cleaning solution on the windows and then wipe them down.

Mold Remover

Ingredients

- ½ cup hydrogen peroxide
- 1 tsp tea tree oil
- 1 cup water

Directions

Combine ½ cup hydrogen peroxide, 1 tsp tea tree oil, and 1 cup water in a mixing container. Using a funnel, carefully pour the solution into a spray bottle. Replace the spray top. Label the bottle. Spray on mold and do not rinse.

Clogged Drain Opener

Ingredients

- ¼ cup vinegar
- ¼ cup baking soda

Directions

Combine ¼ cup vinegar and ¼ cup baking soda. Mix well. Pour mixture down drain. Let stand for a few minutes and rinse with boiling water.
